Independent Auditor's Report

UNMODIFIED OPINION ON BASIC FINANCIAL STATEMENTS ACCOMPANIED BY REQUIRED SUPPLEMENTARY INFORMATION AND OTHER INFORMATION

County Commission
County of Stephens, Texas
200 W. Walker
Breckenridge, Texas 76424

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information for County of Stephens, Texas (the "County") as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of County of Stephens, Texas as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with account principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Budgetary Comparison Schedule for the General Fund and Road and Bridge Fund, Schedule of Changes in Net Pension Liability and Related Ratios and Schedule of Contributions as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedure to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated December 27, 2021, on my consideration of the County's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial and Compliance Report, we, the managers of County of Stephens, Texas, discuss and analyze the County's financial performance for the fiscal year ended December 31, 2020. Please read it in conjunction with the independent auditor's report on page 1 and the County's Basic Financial Statements which begin on page 10.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities (on pages 10 - 11). These provide information about the activities of the County as a whole and present a longer-term view of the County's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements (starting on page 12) report the County's operations in more detail than the government-wide statements by providing information about the County's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how goods or services of the County were sold to external customers and how the sales revenues covered the expenses of the goods or services.

The notes to the financial statements (starting on page 16) provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

Reporting the County as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the County's overall financial condition and operations begins on page 4. Its primary purpose is to show whether the County is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the County's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the County's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The County's revenues are divided into those provided by outside parties who share the costs of some programs, such as revenue sharing programs from other governments received and fees charged for utility services (program revenues), and revenues provided by the taxpayers or by the State of Texas (general revenues). All the County's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the County's net position and changes in them. The County's net position (the difference between assets and liabilities) provide one measure of the County's financial health, or financial position. Over time, increases or decreases in the County's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the County, however, you should consider nonfinancial factors as well, such as changes in the County's property tax base and the condition of the County's facilities.

In the Statement of Net Position and the Statement of Activities, the County has one activity:

Governmental activities - Most of the County's basic services are reported here, including public safety, maintenance of County roads, community services, and general administration. Property taxes, fines and other fees, and state and federal grants finance most of these services.

Reporting the County's Most Significant Funds

Fund Financial Statements

The fund financial statements begin on page 12 and provide detailed information about the most significant funds - not the County as a whole. Laws and contracts require the County to establish some funds, such as a debt service fund used to provide sources of revenues to service the County's general obligation bonds. The County's administration establishes many other funds to help it control and manage money for particular purposes. The County's one kind of fund - governmental - uses the following accounting approach.

Governmental funds - Most of the County's basic services are reported in governmental funds. These use the modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the County's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Total net position of the County's governmental activities decreased from \$13,944,610 to \$13,753,507. Current and other assets increased by approximately \$522,000 (consisting primarily of changes in net pension assets offset by decreases in cash). Capital assets decreased by approximately \$615,000 due to depreciation expense in excess of asset additions for the year. Long-term liabilities decreased by \$859,000 due to principal retirement on long-term debt. Other liabilities decreased by \$29,000 due to reductions in ending accounts payable. Decreases in deferred resource outflows totaling \$783,000 and increases in deferred resource inflows totaling \$203,000 were deferred costs related to pension benefit assets.

Table I
County of Stephens, Texas
Net Position

	Governmental Activities 2020	Governmental Activities 2019	Variance Increase/ (Decrease)
Current and other assets	\$ 6,392,139	\$ 5,870,545	\$ 521,594

Table II
County of Stephens, Texas
Changes in Net Position

	Governmental Activities 2020	Governmental Activities 2019	Variance Favorable/ (Unfavorable)
Revenues:			
Program Revenues:			
Charges for services	\$ 863,611	\$ 911,854	\$ (48,243)
Operating grants and contributions	610,086	139,194	470,892
General Revenues:			
Property taxes	4,289,731	4,585,010	(295,279)
Other taxes	13,556	15,735	(2,179)
Miscellaneous income	198,004	162,880	35,124
Investment earnings	120,165	84,635	35,530
Total Revenues	6,095,153	5,899,308	195,845
Expenses:			
Judicial	589,371	503,196	(86,175)
Public transportation	1,753,267	1,753,933	666
General government	1,519,500	1,640,207	120,707
Public facilities	268,230	267,239	(991)
Health and welfare	75,532	74,336	(1,196)
Public safety	1,948,161	1,933,461	(14,700)
Recreation and culture	45,854	23,520	(22,334)
Debt service	86,341	130,406	44,065
Total Expenses	6,286,256	6,326,298	40,042
Increase in Net Position	(191,103)	(426,990)	235,887
Net Position - beginning of year	13,944,610	14,371,600	(426,990)
Net Position - end of year	\$ 13,753,507	\$ 13,944,610	\$ (191,103)

Total revenues of the County were higher by \$196,000 from the previous year. Operating grants and contributions were higher due to state and federal CERZ, CARES, Coronavirus Relief, state airport and election grant funds received for the year. Maintenance and operations taxes were lower by \$295,000 due to reductions in property valuations from the previous year. Charges for services were lower by \$48,000 due mainly to fees of offices. Other revenues were fairly consistent with last year.

Total expenses for the year were \$40,000 less than last year. Judicial expenses increased \$86,000 due to court-appointed attorney fees. General government expenses decreased by \$121,000 due to reduced juvenile probation expenses and general liability insurance. Debt service expenses were lower by \$44,000 due to prior year financing costs. Other functional categories were consistent with last year.

THE COUNTY'S FUNDS

As the County completed the year, its governmental funds (as presented in the balance sheet on page 12) reported a combined fund balance of \$2,495,102, a decrease of \$41,153 in the County's governmental funds from last year's fund balance of \$2,536,255. This differs from the decrease in net position reported above primarily due to capital asset and related debt activity expended at the fund level but capitalized at the government-wide level of reporting. Specific differences are disclosed on the exhibits on pages 13 and 15.

The County's General Fund balance of \$1,013,839 reported on pages 12 and 14 differs from the projected budgetary fund balance of \$309,128 on page 30 due to a revenues being higher than budgeted.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal year 2020, the County had \$40,405,895 invested in a broad range of capital assets including infrastructure, county government facilities and road and maintenance equipment. This amount represents an increase of \$367,208 from last fiscal year (net of asset dispositions). This year's major additions included:

Building improvements	\$ 93,996
Airport improvements	138,710
Rodeo ground improvements	35,000
2020 Ford F450 vehicles (2)	94,502
2013 Ford Escape vehicle	5,000
Total	\$ 367,208

Debt

At December 31, 2020, the County had four outstanding debt obligations in the forms of certificates of obligation, a tax note payable and capital lease liability. Payments on the outstanding obligations will final maturity in 2026. The County issued \$500,000 in new debt and retired \$755,592 in principal on the obligations for an ending balance of \$3,807,034. Future annual payments will approximate \$900,000 until 2023 and then approximately \$138,000 from 2024 until fully retired in 2026. A summary of outstanding debt balances is as follows:

	2020	2019
Certificates of obligation	\$ 2,499,000	\$ 3,252,000
Tax maintenance note	450,000	500,000
Capital lease liability	26,005	55,034
Total	\$ 2,975,005	\$ 3,807,034

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The County's financial health is expected to stabilize during the 2021 fiscal year with further budgetary cuts as revenue has continued to decline. Budgeted revenues of the general and road & bridge funds for next fiscal year are approximately \$5.51 million. Budgeted expenditures of those funds are approximately \$5.64 million. The adopted budget deficit of \$129,000 should result in an ending combined fund balance for the general and road and bridge funds of approximately \$1.6 million at December 31, 2021.

CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors a general overview of the County's finances and to show the County's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the County Treasurer's office at: County of Stephens, Texas, 200 W. Walker, Breckenridge, Texas 76424.

COUNTY OF STEPHENS, TEXAS
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
STATEMENT OF NET POSITION
DECEMBER 31, 2020

Total fund balances - governmental funds	\$	2,495,102
1 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$40,038,687 and the accumulated depreciation was \$28,457,561. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase (decrease) net position.		7,716,088
2 Prior year property tax levies which are considered collectible are recognized as revenue in the accounting period in which levied. However, they are reported as a deferred resource in the fund level financial statements until received. Additionally, billed but uncollected receivables related to fines and fees are not recognizable as revenue until received in the fund level financial statements. The net effect of including the beginning balances for deferred revenues related to delinquent taxes receivable and fines and fees receivable in the governmental activities is to increase net position.		3,081,725
3 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the capital outlays and debt principal payments is to increase (decrease) net position.		1,199,237
4 Included in the noncurrent assets is the recognition of the County's net pension asset required by GASB 68 in the amount of \$1,111,356, a deferred resource inflow in the amount of \$694,402 and a deferred resource outflow in the amount of \$339,381. This resulted in an increase in net position.		756,335
5 Depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.		(982,399)
6 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing deferred revenue as revenue, eliminating interfund transactions, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase (decrease) net position.		(512,581)
Net position of governmental activities	<u>\$</u>	<u>13,753,507</u>

The notes to the financial statements are an integral part of this statement.

Net change in fund balances	(56,978)	67,500	(125,361)	73,686	(41,153)
Fund balance - beginning	1,070,817	636,675	150,411	678,352	2,536,255
Fund balance - ending	\$ 1,013,839	\$ 704,175	\$ 25,050	\$ 752,038	\$ 2,495,102

The notes to the financial statements are an integral part of this statement.

COUNTY OF STEPHENS, TEXAS
 RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
 FOR THE YEAR ENDED DECEMBER 31, 2020

Total net change in fund balances - governmental funds	\$	(41,153)
1 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the capital outlays and debt principal payments is to increase (decrease) net position.		1,199,237
2 Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position.		(982,399)
3 The implementation of GASB 68 required that certain expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of 12/31/19 caused the change in the ending net position to increase in the amount of \$256,012. Contributions made before the measurement date but after the previous measurement date were reversed from deferred resource outflows and recorded as a current year expense. This caused a decrease in the change in net position totaling \$250,307. The County's reported TCDRS net pension expense had to be recorded. The net pension expense increased the change in net position by \$140,088. The result of these changes is to increase the change in net position.		145,793
4 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unearned revenue as revenue, adjusting current year revenue to show the revenue earned from the current year's tax levy, eliminating interfund transactions, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase (decrease) net position.		(512,581)
Change in net position of governmental activities	<u>\$</u>	<u>(191,103)</u>

The notes to the financial statements are an integral part of this statement.

COUNTY OF STEPHENS, TEXAS
NOTES TO THE FINANCIAL STATEMENTS
AT AND FOR THE YEAR ENDED DECEMBER 31, 2020

I. Summary of significant accounting policies

County of Stephens, Texas (the "County") was incorporated in 1883, under provisions of the State of Texas. The County is governed by a Commissioners' Court consisting of a County Judge and four Commissioners. The financial statements of the County are prepared in accordance with U.S. Generally Accepted Accounting Principles ("GAAP"). The County's reporting entity applies all relevant Governmental Accounting Standards Board ("GASB") pronouncements. Proprietary funds (if applicable) apply only those Financial Accounting Standards Board ("FASB") pronouncements and Accounting Principles Board ("APB") opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails.

A. Reporting entity

The County was created in accordance with, and continues to operate under, the statutes and regulations of the State of Texas. The County operates under the direction of the Commissioners' Court which is made up of four elected commissioners, one from each precinct within the county, and the County Judge who presides over the Court. The county departments are headed by elected officials who hire and maintain their staff within the restraints of the official county budget.

For financial reporting purposes, management does not consider Stephens Memorial Hospital a component unit of the County. The hospital is treated as a separate entity since it is audited as such.

B. Government-wide and fund financial statements

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the County nonfiduciary activities with most of the interfund activities removed. *Governmental activities* include programs supported primarily by taxes, franchise fees, grants and other intergovernmental revenues. *Business-type activities* include operations that rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates how other people or entities that participate in programs the County operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the County. Examples include fees charged for auto licenses, county clerk fees, fines, etc. The "grants and contributions" column includes amounts paid by organizations outside the County to help meet the operational or capital requirements of a given function. Examples include grants under the U.S. Department of Agriculture Rural Development Program. If a revenue is not a program revenue, it is a general revenue used to support all of the County's functions. Taxes are always general revenues.

Interfund activities between governmental appear as due to/due from on the Governmental Fund Balance Sheet and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance. All interfund transactions between governmental funds are eliminated on the government-wide statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due from on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for County operations, they are not included in the government-wide statements. The County considers some governmental funds major and reports their financial condition and results of operations in a separate column.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues and expenses are nonoperating.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The County considers all revenues available if they are collectible within 60 days after year end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors some times require the County to refund all or part of the unused amount.

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The County applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into invested in capital assets net of related debt, restricted net position, and unrestricted net position.

D. Fund accounting

The County reports the following major governmental funds:

1. **The General Fund** – The general fund is the County's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
2. **Road & Bridge Special Revenue Fund** - The County's activities for which revenues and assessments relative to vehicle licenses, permits and an allocated portion of property tax revenues for the purposes of supporting and maintaining the County's public transportation system are accounted for in these special revenue funds.
3. **Capital Projects Fund** - The capital projects fund accounts for resources accumulated and payments made for the acquisition and improvement of sites, construction and remodel of facilities and procurement of equipment necessary for providing adequate services within the County.

The County reports the following nonmajor fiduciary funds:

4. **Special Revenue Funds** - The County's activities for which revenues and assessments relative to specific revenue sources and uses can be used to support those specific programs are accounted for in these special revenue funds.

E. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, and pension expense, information about the Fiduciary Net Position of the Texas County and District Retirement System (the "TCDRS") and additions to/deductions from TCERS' Fiduciary Net Position have been determined on the same basis as they are reported to TCERS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

F. Other accounting policies

1. For purposes of the statement of cash flows for proprietary and similar fund-types, the County considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.
2. The County reports inventories of supplies at weighted average cost including consumable maintenance, instructional, office, athletic, and transportation items. Supplies are recorded as expenditures when they are consumed.
3. In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed in the period incurred.

In the fund financial statements, governmental fund types recognized bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

4. The County's policy does permits employees to accumulate unused vacation pay benefits. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements.
5. Capital assets, which include land, buildings, furniture and equipment and infrastructure assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the County are depreciated using the straight line method over the following estimated useful lives:

<u>Asset:</u>	<u>Years</u>
Buildings	10-40
Building Improvements	10-40
Infrastructure	40
Vehicles	5
Equipment	10
Technology Equipment	5

6. Governmental fund balances are classified into the following categories:

Non-spendable fund balances include amounts that are not in spendable form (i.e. inventory or prepaid items) or amounts that are required to be maintained intact legally or contractually (i.e. principal in an endowment fund)

Restricted fund balances include amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

Committed fund balances include amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority.

Assigned fund balances are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed.

Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications. In other funds, the unassigned classification should be used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned. Governments are required to disclose information about the processes through which constraints are imposed on amounts in the committed and assigned classifications.

County policies concerning fund balances are as follows:

The County's Unassigned General Fund Balance will be maintained to provide the County with sufficient working capital and a margin of safety to address local and regional emergencies without borrowing. The Unassigned General Fund Balance may only be appropriated by resolution of the Board of Trustees.

Fund Balance of the County may be committed for a specific source by formal action of the County Commission. Amendments or modifications of the committed fund balance must also be approved by formal action of the County Commission.

When it is appropriate for fund balance to be assigned, only the County Commission has the authority to assign fund balance by formal action by the commissioners.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

At December 31, 2020, the County's general fund balances were committed or assigned as follows:

Committed for capital improvements	\$ 25,050.
Restricted for debt service	\$ 659,636.

7. When the County incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first unless unrestricted assets will have to be returned because they were not used.

II. Stewardship, compliance, and accountability

A. Budgetary data

The County Treasurer submits an annual budget to the County Commission in accordance with the County Charter. In September, the County Commission adopts annual fiscal year budgets for specified County funds. Budgets for the general fund are adopted on a basis consistent with U.S. generally accepted accounting principles. The budget is properly amended throughout the year.

B. Excess of expenditures over appropriations by more than \$2,500

Functional Category	Amount Over Budget	Explanation
Judicial	\$ 37,364	Over budget due to ending accounts payable.
General government	\$ 10,459	Over budget due to ending accounts payable.
Public safety	\$ 74,360	Over budget due to ending accounts payable.

C. Deficit fund equity

None.

III. Detailed notes on all funds

A. Deposits and investments

County Policies and Legal and Contractual Provisions Governing Deposits

Custodial Credit Risk for Deposits - State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the County complies with this law, it has no custodial credit risk for deposits.

Foreign Currency Risk - The County limits the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit by not investing in any foreign currency.

County Policies and Legal and Contractual Provisions Governing Investments

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the County to adopt, implement, and publicize an investment policy. Statutes authorize the County to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the County to have independent auditors perform test procedures related to investment practices as provided by the Act. The County is in substantial compliance with the requirements of the Act and with local policies.

As of December 31, 2020, the County had no investments..

B. Property taxes

The County's property tax is levied each October 1, on the assessed value listed as of the prior January 1, for all real and certain personal property located in the County. The appraisal of property within the County is the responsibility of the Stephens County Appraisal District as required by legislation passed by the Texas Legislature. The Appraisal District is required under such legislation to assess all property within the Appraisal District on the basis of 100% of its appraised value and is prohibited from applying any assessment ratios. The assessed value upon which the fiscal 2020 levy was based was approximately \$532,528,736. The value of property within the Appraisal District must be reviewed every five years; however, the County may, at its own expense, require annual review of appraised values. The County may challenge appraised values established by the Appraisal District through various appeals and, if necessary, legal action.

General property taxes are limited by the Texas Constitution to \$2.50 per \$100 of assessed valuation. The combined tax rate to finance general governmental service for the year ended December 31, 2020, was \$0.80 per \$100 of assessed valuation.

Property taxes attach as an enforceable lien on property as of January 1, following the levy date. Taxes are due by January 31, following the levy date. Current tax collections for the year were 43.54% and total tax collections were 111.08% of the tax levy.

C. Delinquent taxes receivable

Delinquent taxes are prorated between maintenance and special revenue funds based on rates adopted for the year of the levy. Allowances for uncollectible taxes receivable within the General and Road and Bridge Special Revenue Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically written off, but the County is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

D. Interfund balances and transfers

None.

E. Disaggregation of receivables and payables

Receivables at December 31, 2020 were as follows:

	Accounts	Taxes	Total Receivables
Governmental Activities:			
General Fund	\$ 859,525	\$ 2,555,935	\$ 3,415,460
Road and Bridge Fund	79,202		79,202
Special Revenue Funds	8,694		8,694
Total Governmental Activities	\$ 947,421	\$ 2,555,935	\$ 3,503,356

Payables at December 31, 2020 were as follows:

	Accounts
Governmental Activities:	
General Fund	\$ 175,605
Road & Bridge Fund	37,523
Special Revenue Funds	16,618
Total Governmental Activities	\$ 229,746

F. Capital asset activity

Capital asset activity for the County for the year ended December 31, 2020, was as follows:

	Balance 12/31/2019	Additions	Deletions	Balance 12/31/2020
Governmental activities:				
Land	\$ 38,317			\$ 38,317
Infrastructure - roads	25,822,876	173,710		25,996,586
Buildings and improvements	9,490,056	93,996		9,584,052
Furniture and equipment	4,687,438	99,502		4,786,940
Totals	40,038,687	367,208		40,405,895
Less accum depreciation for:				
Infrastructure - roads	21,685,740	619,215		22,304,955
Buildings and improvements	2,544,333	243,670		2,788,003
Furniture and equipment	4,227,488	119,514		4,347,002
Total accum depreciation	28,457,561	982,399		29,439,960
Governmental activities capital assets, net	\$ 11,581,126	\$ (615,191)		\$ 10,965,935

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:

General government	\$ 33,100
Public safety	280,944
Public transportation	668,355
Total depreciation expense - governmental activities	<u>\$ 982,399</u>

G. Accumulated unpaid vacation and sick leave benefits

County employees are entitled to certain compensated absences based on their length of employment. However, total accrued leave benefits were inconsequential in amount and were not recorded as a liability.

H. Texas County and District Retirement System

Plan Description. The District provides pension, disability, and death benefits for all of its full-time employees through a statewide, multiple-employer, public-employee retirement system through the Texas County District Retirement System (the "TCDRS"). The system serves over 700 actively participating counties and districts throughout Texas. Each employer has its own defined benefit plan that functions similarly to a cash balance plan. The assets of the plans are pooled for investment purposes, but each employer's plan assets may be used only for the payment of benefits to the members of that employer's plan. In accordance with Texas law, it is intended that the pension plan be construed and administered in a manner that the retirement system will be considered qualified under Section 401(a) of the Internal Revenue Code. All employees (except temporary staff) of a participating employer must be enrolled in the plan. The TCDS issues a comprehensive annual financial report (CAFR) on a calendar year basis. The CAFR is available upon written request from the TCDS Board of Trustees at P. O. Box 2034, Austin, Texas 78768-2034.

The plan provisions are adopted by the governing body of the District, within the options available in the Texas state statutes governing TCDS (TCDS Act). Members can retire at ages 60 and above with 10 or more years of service or with 30 years regardless of age, or when the sum of their age and years of service equals 75 or more. A member is vested after 10 years but must leave his accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump-sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the District within the actuarial constraints imposed by the TCDS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDS Act.

Contributions. A combination of three elements funds each employer's plan: employee deposits, employer contributions and investment income.

- The deposit rate for employees is 4%, 5%, 6% or 7% of compensation, as adopted by the employer's governing body.
- Participating employers are required, by law, to contribute at actuarially determined rates, which are determined annually.
- Investment income funds a large part of the benefits employees earn.

Employers have the option of paying more than the required contribution rate each year. Extra contributions can help employers "prefund" benefit increases, such as a cost-of-living adjustment to retirees, and they can be used to help offset or mitigate future increases in the required rate due to negative plan experience. There are two approaches for making extra contributions: (a) paying an elected contribution rate higher than the required rate and (b) making an extra lump-sum contribution to the employer account.

Contribution Rates		
	2019	2020
Employee	7.00%	7.00%
Employer	12.00%	12.00%
Fiscal year 2020 employer contributions		\$ 256,012
Fiscal year 2020 employee contributions		\$ 149,340

The District's contributions to TCDRS for the year ended December 31, 2020 were equal to the required contributions.

Actuarial Assumptions. TCDRS is a statewide, agent multiple-employer, public-employee retirement system. The system serves approximately 700 participating counties and districts throughout Texas. Each employer maintains its own customized plan of benefits. Plan provisions are adopted by the governing body of each employer, within the options available in the TCDRS Act. Because of that, employers have the flexibility and local control to select benefits and pay for those benefits based on their needs and budgets.

Each employer has a defined benefit plan that functions similarly to a cash balance plan. The assets of the plans are pooled for investment purposes, but each employer's plan assets may be used only for the payment of benefits to the members of that employer's plan. In accordance with Texas law, it is intended that the pension plan be construed and administered in a manner that the retirement system will be considered qualified under Section 401(a) of the Internal Revenue Code. All employees (except temporary staff) of a participating employer must be enrolled in the plan.

A percentage of each employee's paycheck is deposited into his or her TCDRS account. That percentage (from 4% to 7%) is set by the employer.

The employee's savings grow, by law, at a rate of 7%, compounded annually. The employer selects a matching rate - at least "dollar for dollar," up to \$2.50 per \$1.00 in the employee's account. At retirement, the employee's account balance is combined with employer matching and converted into a lifetime monthly benefit.

Employees receive a month of service time for each month that they make a deposit into their account. The amount of service an employee needs to earn a future benefit is called the vesting requirement. When an employee is vested, he or she has the right to a monthly benefit, which includes employer matching, at age 60 or older. Employers may choose 5-, 8- or 10-year vesting. In addition, employees may retire before age 60 if they meet one of the following requirements, set by the employer:

- **"Rule of " eligibility:** Under these rules, a vested employee can retire if their age plus years of service time add up to at least 75 or 80.
- **20-year or 30-year retirement at any age:** This lets employees retire when they have at least 20 or 30 years of service time. Retirees elect to receive their lifetime benefit by choosing one of seven actuarially equivalent payment options.

Employers may elect to provide other optional benefits. Prior service gives employees monetary credit for time worked for an organization before it joined the system. Buybacks allow current employees to re-establish a closed TCDRS account from previous service with an employer. Partial lump-sum payments at retirement allow employees to withdraw part of their TCDRS account balance as a lump sum at retirement with a reduced monthly benefit.

In addition, an employer may choose to adopt a cost-of-living adjustment (COLA) for its retirees. This adjusts retiree benefits to restore purchasing power lost due to the effects of inflation.

The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions:

Actuarial Cost Method	Entry age
Amortization Method	Level percentage of payroll; closed
Remaining Amortization Period	0.0 years
Asset Valuation Method	5-year smoothed market
Inflation	2.75%
Salary Increases	Varies by age and service. 4.9% average over career including inflation.
Investment Rate of Return	8.00%
Retirement Age	Members who are eligible for service retirement are assumed to commence receiving benefit payments based on age. The average age at service retirement for recent retirees is 61.
Mortality	130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Changes in Assumptions	2015: New inflation, mortality and other assumptions were reflected. 2017: New mortality assumptions were reflected.
Changes in Plan Provisions	2017: New annuity purchase rates were reflected for benefits earned.

Discount Rate. The discount rate used to measure the total pension liability was 8.1%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 8.1%. The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultant, Cliffwater LLC. The numbers shown below are based on January 2020 information for a 10-year time horizon.

Note that the valuation assumption for long-term expected return is re-assessed at a minimum of every four years, and is set based on a 30-year time horizon; the most recent analysis was performed in 2017.

Asset Class	Target Allocation	Geometric Real Rate of Return
US Equities	11.50%	4.45%
International Equities - Developed	11.00%	4.55%
International Equities - Emerging	8.00%	5.55%
Global Equities	1.50%	4.85%
Hedge Funds	18.00%	4.10%
Strategic Credit	8.00%	4.12%
Distressed Debt	2.00%	6.30%
Direct Lending	10.00%	8.06%
Private Equity	16.00%	7.55%
REIT Equities	2.00%	4.05%
Private Real Estate Partnerships	6.00%	6.25%
Master Limited Partnerships (MLPs)	3.00%	6.00%
Investment-Grade Bonds	3.00%	0.75%
Total	100.00%	

Changes in the Net Pension Liability. At December 31, 2019, the District reported a net pension liability/(asset) of (\$1,111,356). The changes in net pension liability (asset) were as follows:

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability/(Asset) (a) - (b)
Balance at 12/31/2018	\$ 12,338,437	\$ 12,337,999	\$ 438
Changes for the year:			
Service cost	251,174		251,174
Interest	979,988		979,988
Change in benefit terms			
Difference between expected/actual experience	51,843		51,843
Changes in assumptions			
Contributions - employer		250,913	(250,913)
Contributions - employee		146,366	(146,366)
Net investment income		2,026,759	(2,026,759)
Benefit payments, including refunds of employee contributions	(1,001,490)	(1,001,490)	0
Administrative expenses		(10,464)	10,464
Other charges		(18,774)	18,774
Net changes	281,515	1,393,309	(1,111,794)
Balance at 12/31/18	\$ 12,619,952	\$ 13,731,308	\$ (1,111,356)

The net pension liability was measured as of December 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date and for the year then ended.

There were no changes of assumptions or other inputs that affected measurement of the total pension liability during the measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Discount Rate Sensitivity Analysis. The following shows the net pension liability calculated using the discount rate of 8.1%, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (7.1%) or 1 percentage point higher (9.1%) than the current rate.

	1% Decrease in Discount Rate (7.1%)	Discount Rate (8.1%)	1% Increase in Discount Rate (9.1%)
Net pension liability / (asset)	\$ 168,998	\$(1,111,356)	\$(2,214,618)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.

For the year ended December 31, 2020, the District recognized pension expense of \$110,824.

At December 31, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual economic experience (net of current year amortization)	\$ 41,474	\$ 327,650
Changes in actuarial assumptions (net of current year amortization)	41,895	
Differences between projected and actual investment earnings (net of current year amortization)		366,752
Contributions subsequent to the measurement date	256,012	
Total	\$ 339,381	\$ 694,402

\$256,012 reported as deferred outflows of resources related to pension resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending December 31, 2020. Other amounts reported as deferred outflows and inflows of resources related to pension will be recognized in pension expense as follows:

Year ended December 31,	Amount
2021	\$ (225,771)
2022	\$ (240,063)
2023	\$ 54,942
2024	\$ (200,141)
2025	\$ 0
Thereafter	\$ 0

i. Deferred inflows and outflows of resources

	Deferred Outflows of Resources	Deferred Inflows of Resources
Deferred resources related to TCDRS per above	\$ 339,381	\$ 694,402
Deferred charge related to refunded bonds	42,929	
Total	<u>\$ 382,310</u>	<u>\$ 694,402</u>

J. Long-term debt

During the year ended December 31, 2020, the County had four outstanding loans payable as follows:

Issue	Beginning Balance	Advanced	Retired or Refunded	Ending Balance	Current Portion
\$410,000 Certificates of Obligation, Series 2011 bearing interest at 4.0% due incrementally on 06/01 and 12/01 of each year until 06/01/2026.	\$ 222,000		\$ 28,000	\$ 194,000	\$ 29,000
\$5,780,000 Certificates of Obligation, Series 2014 bearing interest variably from 2.0% to 3.0% due incrementally on 02/15 and 08/15 of each year until 02/15/2023.	3,030,000		725,000	2,305,000	745,000
\$500,000 Tax Note, Series 2019 bearing interest at 2.35% due incrementally on 02/15 and 08/15 of each year until 02/15/2026.	500,000		50,000	450,000	50,000
\$114,007 capital lease agreement bearing interest at 3.25% due annually beginning 03/08/2019 until 03/08/2021.	55,034		29,029	26,005	26,005
Subtotal - long-term debt	3,807,034		832,029	2,975,005	850,005
Bond premium, Certificates of Obligation, Series 2014	84,088		26,908	57,180	N/A
Total Long-Term Debt	<u>\$ 3,891,122</u>		<u>\$ 858,937</u>	<u>\$ 3,032,185</u>	<u>\$ 850,005</u>

Future debt service requirements are as follows:

Year ended December 31,	Certificates of Obligation		Total Requirements
	Principal	Interest	
2021	\$ 824,000	\$ 75,142	\$ 899,142
2022	850,000	50,063	900,063
2023	877,000	24,189	901,189
2024	128,000	9,276	137,276
2025	134,000	5,645	139,645
2026	136,000	1,895	137,895
Total	<u>\$ 2,949,000</u>	<u>\$ 166,210</u>	<u>\$ 3,115,210</u>

Capital Lease Agreement	
Future Annual Lease Payments:	Amount
2021	\$ 26,850
Less: incremental borrowing rate of interest	(845)
Present Value of Future Lease Payments	<u>\$ 26,005</u>

K. Non-current liabilities

Changes in non-current liabilities are as follows:

	Beginning Balance	Additions	Deletions	Ending Balance
Long-term debt	\$ 3,807,034		\$ 832,029	\$ 2,975,005
Bond premium	84,088		26,908	57,180
Total non-current liabilities	<u>\$ 3,891,122</u>		<u>\$ 858,937</u>	<u>\$ 3,032,185</u>

L. Subsequent event

Management has evaluated subsequent events through December 27, 2021; the date which the financial statements were available for distribution. There were none noted.

M. Implementation of new GASB statements

None applicable for the current or succeeding year that should affect the County.

COUNTY OF STEPHENS, TEXAS
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED DECEMBER 31, 2020

Budget

The official budget was prepared for adoption for all Governmental Fund Types. The budget was prepared in accordance with accounting practices generally accepted in the United States of America. The following procedures are followed in establishing the budgetary data.:

- a. Each September, the County prepares a budget for the next succeeding fiscal year. The operating budget includes proposed expenditures and the means of financing them.
- b. A meeting of the County Commissioner's Court (the "Commissioners") is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
- c. Prior to the beginning of the fiscal year, the budget is legally enacted through passage of a resolution by the Commissioners.

Once a budget is approved, it can be amended at function and fund level only by approval of a majority of the members of the Commission. Amendments are presented to the Commissioners at its regular meetings.

Each amendment must have Commissioners' approval. Such amendments are made before the fact, are reflected in the official minutes of the Commissioners and are not made after fiscal year end as required by law.

Each amendment is controlled by the budget coordinator at the revenue and expenditure function/object level.

Budgeted amounts are as amended by the Commissioners. All budget appropriations lapse at year end.

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at December 31, and encumbrances outstanding at that time are to be either cancelled or appropriately provided for in the subsequent year's budget. There were no end-of-year outstanding encumbrances that were provided for in the subsequent year's budget.

Defined Benefit Pension Plan

Changes of benefit terms.

There were no changes of benefit terms that affected measurement of the net pension liability during the measurement period.

Changes of assumptions.

There were no changes of assumptions that affected measurement of the net pension liability during the measurement period.

Independent Auditor's Report

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENTAL AUDITING STANDARDS

County Commission
County of Stephens, Texas
200 W. Walker
Breckenridge, Texas 76424

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of County of Stephens, Texas (the "County") as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued my report thereon dated December 27, 2021.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, I do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether County of Stephens, Texas' financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

COUNTY OF STEPHENS, TEXAS
SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED DECEMBER 31, 2020

A. Summary of Auditor's Results

Type of auditor's report issued: Unmodified.

Internal control over financial reporting:

Material weakness(es) identified? None.

Significant deficiency(ies) identified that are not considered to be material weaknesses? None reported.

Noncompliance material to financial statements noted? No.

An unmodified opinion was issued on the general purpose financial statements.

The audit disclosed no noncompliance which is material to the general purpose financial statements.

B. Findings Relating to the Financial Statements which are Required to be Reported in Accordance with Generally Accepted Government Auditing Standards

None reported.

C. Findings and Questioned Costs for Federal Awards

N/A.

COUNTY OF STEPHENS, TEXAS
SUMMARY OF PRIOR AUDIT FINDINGS
FOR THE YEAR ENDED DECEMBER 31, 2020

None reported.
